## JBL PREMIUM FINISH PROGRAM

---

Introducing the JBL Premium Finish Program, available exclusively for the DD67000 Everest and K2 S9900 loudspeakers. This limited-edition program offers hand-crafted, automotive-grade, high-gloss painted finishes in a choice of seven colors that turn these world-class loudspeakers into works of art.

The DD67000 Everest and K2 S9900 models utilize the most advanced technologies and components to create some of the world's most sophisticated and sought-after loudspeakers. Now the engineering and design prowess that goes into these remarkable loudspeakers can be had in a high-gloss painted finish that suits your individual style and décor. Handcrafted and built-to-order, these unique finishes provide a stunning appearance that compliments these loudspeakers' unparalleled acoustic performance.

Meticulous preparation goes into each cabinet for its individual finish and then it is painted using a multimillion dollar, automotive-grade positive pressure carousel. Using a multi-stage base-coat/clear-coat system, the cabinets are subsequently finely sanded and polished to a mirror finish. This level of craftsmanship provides a unique finishing touch to the already sophisticated appearance of the Everest and K2 loudspeakers. The result makes an individual artistic statement for those with the most discriminating tastes in sound and design.

---

## JBL PREMIUM FINISH PROGRAM

---

Inspired by the finest luxury sports cars, the available finishes in the program use automotive-grade paint in solid and metallic finishes. With a choice of seven spectacular colors, there is sure to be an option to complement any style and décor.

JBL Premium Finish loudspeakers are hand-crafted and made to order. Each is truly a work of art and as such, the process to create them is time-consuming. Typical delivery window is 120 days from the time of order. With the unique appearance provided by such attention to detail, the end result is a loudspeaker unlike any other.
